

Performance you can rely on.

## Infiniteum SV160. Next is now.

### **Infiniteum SV160. Innovation driven by evolution.**

Engine technology is evolving. So are we. Infiniteum presents a new generation of viscosity modifier. Infiniteum SV160. The new viscosity modifier technology designed to meet today's engine cleanliness and fuel economy challenges – and the next challenges to come. Group I, II and III base oil compatible. Engineered to reduce complexity through lower treat rates. Ready to help you formulate a wider range of viscosity grades.
